

People's Political Power Party of Canada

A Sound of a New Life for this Nation

Transcript:

(Baby laughing)

Roger Poisson starts speaking:

The sound of a new life for this nation.

(Many people clapping)

This is for you the listener, the voice of a new Canada. A new life as you heard the baby. We come to a brand new life, we are starting all over. It is like being born again.

Canada will be a landmark for all nations because you are the voice, you are the leadership of this nation, you that listens, that may think that you are nothing but you are the voice that decides what will happen in Canada.

A child that is born knows nothing; open to many errors but the learning of a child is in the form of trust, reaching out to those who reach to them, to teach them well, how to modify the things that need to be improved into their lives.

Canada you are the first nation, the first nation of the world to become functioning by the love extended to you by everyone of this nation. We love you. These applauses were for you at no cost to you because we love you. We are the parent of this nation, all of us together in a mutual respect, reaching out to the needy, feeding the poor and learning to love the true base of trust.

People's Political Power Party of Canada

A Sound of a New Life for this Nation

Many people ask, perhaps you the listener, “What will my future be, that of my children, that of myself; uneducated, perhaps in prison, in hospitals, on the street with gangs because nothing else seems to draw you but rather seems to expel you. This is an invitation for you to draw up a new nation.

When we look at the problems of this nation are we not all part of this problem. Canada will not be subject to dictatorship much less being branded with microchips. Because in such you give up the notion and the feelings and the possibility of trust. You may be monitored in a way that anyone may feel to. But if one has the intention to kill someone, he will do it and the microchip will do nothing to save that life. Trust and respect only is what our politicians, our people in government are wanting us to do with them and you are, you are the ones that decides what Canada will be.

We don't come and make you promises that you will pay for it. We come to tell you that we will change this nation. You are members of my family and my family is in my heart, every member of this nation.

Many want to know the policies. I don't like the word “policy” because I could speak to you of my love for you. A policy is something that dictates a people to obedience to such whether they like it or not. But love will never be refused by anyone.

This nation is the first nation of the world where the people are standing up not in a warring way with weaponries in the hand, and hatred, and slander, NO! We are standing up through morality, through prosperity, through equality, absence of racism and the fullness of love for everyone's heart. You are the voice of the nation. You are the leader and as you will see in the back of the cover of this CD that was prepared for you to know what we want to do for you. The words may be mislead, misunderstood but the voice can not be corrected for what it speaks is what it must do. The voice of a leader must be the

People's Political Power Party of Canada

A Sound of a New Life for this Nation

voice of his people. You are that voice, you the listener. It gives you the power to design a new Canada, your new Canada in mind. And to me loyalty only is truth and it is my pledge unto you.

What you are listening to is your own wishes. What you once dreamed perhaps as a child on your reservation, perhaps in your country of origin be it Africa, China, anywhere in the world, you had a dream when you came to Canada but the dream of a Canadian must not be to survive and to be rich but more to be happy and make happy and to remove the possibilities of racism, hatred and wars by making it become a family, a family environment from the east coast to the west coast, from the Inuit's up north, all the way to the American border and beyond, because this notion of love spreading over Canada now will become a universal landmark for all people.

Many people are wanting to know what we're going to do. First of all we want to tell you that we will offer you what we want to do for you and if it is acceptable to you than remember us, we shall be your voice. This is not a solicitation for your votes and membership, not at all. We are telling you that you are part of our family, our hearts. This is why we work voluntarily. We don't work for wages, we don't work for praise, we don't work for monies, nothing. We work for you. A true king, a true leader is one that brings to his people that believed in him or her all that is good for their families, their communities, their environment.

Yesterday, I have to say this, I saw it in the headline of the paper today and it's a blessing for Winnipeg and it's a blessing for the nation where in the city of Winnipeg, the Winnipeg police have arrested 300 men that were soliciting prostitutes, young girls and everything. They have seized their cars. And if it is a first time offender they could reclaim their cars within two days, as it says, to give them time to explain to their wives what happen to their cars. And those who that have been more than once caught

A Sound of a New Life for this Nation

soliciting prostitution from young women that have been abandoned, that are trying to survive, young kids, well the next time, the second time, they have to explain to a judge why they do these things and convince the courts that they should get their vehicles back.

What was shocking for me to see in this that in the cars they have seized, they have seized limousines; they have seized Mercedes, garbage trucks, motorcycles. And if people have the monies to have this [*cars, vehicles*] and they go and they only make believe that they help, which they are not. They are soliciting favors, sexual favors, from victims that are trying to survive the atrocities of men like them.

It is a good thing I am happy about it because we are going to bring back the respect for woman, the respect for the family, the family value and immediately we will make the seventh day 'the Family Day', a day of rest; a day of rest for the pollution in the air, a day of rest for to gather, to strengthen, and to keep the family alive.

Another thing that we want to do and we will do it; we want to make so that senior citizens that have contributed to their nation that when they reach 65 years old, that they have a burden to try and keep other jobs so that they could pay the taxes on their homes and the water and the hydro, we want citizens to be free from all these things. They have given their lives to the nation but that will be for the residence that they live in.

We have so much, so much. Many promises were made to you, that GST would disappear...it hasn't but it will. We want to phase it out over a 5 year period. We want to phase it out but immediately as we get into government, we will turn all of it's funding to settle the debts to the first nation people immediately, all the land claims. And we are going to help these people get on their feet and heal by the power of love. The greatest medicine of all is love and caring. That should be the base of everyone to wants to scream about their faith and religion but do nothing about the poverty of these people.

A Sound of a New Life for this Nation

I love you, you the listener, that's why I call upon you. I call upon you to try me on your behalf to make Canada a beautiful nation where crime, alcohol, drug abuse, sexuality abuse, will become a thing of the past because of the joy of living the true spirit of family between all people.

You see if women were respected, fully respected, and I know that they are size heckling at each other, pro-life, pro-abortion but they are women fighting each other while the men are out there playing. If women were respected fully in this nation we would have no need for either one of them [*pro-life, pro-choice*] and the children would be happy. We would not have the criminality that we have, angry children that are trying to let out their steam wherever they can.

The First Nation people, those people, why don't we look at the mess we have made of these people in 500 years instead of looking down of them, why don't we look at what we've done to them and discover today what we can do for them because as we are paying GST now we will phase it out in 5 years but we will put these people on their feet. And common sense tells you, and now I'm not talking about economics here, I am talking about love for these people. But when we will do these things, we will get them on their feet, and help them get on their feet, the wel-fare system will diminish among the First Nations' people, they will become people that will be producing and giving something to this nation and not limited always to the confine, the boundaries of the reservation system as it was meant to be, to be kept there and never come out of.

To the young, the teenagers, the ones in prison, the ones addicted to drugs, alcohol, substance, chemical abuse, I love you, you are me kid and I want you to know this; you better start dreaming, kid, dreaming between the clouds of your alcoholism, and drugs and sniffing because we will make you somebody in this nation. You are my children,

People's Political Power Party of Canada

A Sound of a New Life for this Nation

not by adoption but by the love in my heart for you. I see your pain, I see your suffering and you will come out of it because I will not stop until you are happy.

You could dream up having a nice car one day, a nice house and nice furniture and good jobs. And will not extort you as it has been done over centuries with false promises that were never delivered.

Canada right now, if we look at the government of Canada, you the listener, we are the one being looked at as the one abusing these people, if only because we are ignorantly sitting down doing nothing.

Canada will pay through the GST over a 5 year period, settle all the land claims and help these people [*First Nations people*] to build communities, not reservations anymore but communities within this nation where will be linked as parents to the child.

I love you the listener. We will cover all these things.

When we want to speak 'technology', 'advancement'; technology has been very dangerous to the nation, very dangerous and it is getting more dangerous because ever thing, ever since we came out with technology we find new diseases coming out because people are not working anymore, they are sitting, they are bored, they are lonely, they get exercise for their fingers on keyboards but their whole body is dormant, so you get muscled fingers and dead bodies.

When we used to use the bulls to pull the plow; you know you may say advancement and investment but now what have we done to the bull? We have put him on the table, we have machinery that pollutes the air. I am not saying we are going back to this but what technology has done to the bulls, is doing to us now, they are eliminating the people in

A Sound of a New Life for this Nation

the name of profits, or corporations where they could replace the human by machines but they are forgetting that unless the people have the money to buy their gimmicks, this is why free-trade that has now moved to Mexico because they get cheaper wages out there under the disguise of helping these people but they are going to try and sell us on these goods and I want to remind you that Chrysler Canada when it was going to go bankrupt they hired Leia Coca to save the company, Leia Coca decided to turn Chrysler into a robot corporation. But they found out that their sells dropped 50% because their customers were the people that they had fired to replace them by machines. So this is when they decided to start bring back people to work.

Collectivity, corporation that wants everybody to be working part-time, so that they have no commitment to them through pension plans through survival. Multi-national are not here to do us a favor, they are here to fill their pockets and they will do it as cheap as they can to eliminate everything, the labor they can and now you are seeing these machines where they are eliminating cashiers into stores so that you do your own bagging and everything. So who is going to buy their product if everyone is broke because there is no work for this nation?

The prison system, Solicitor General Department: They claim that it costs \$80,000 a year to put a man in jail. Economically, if they want to talk economics, wouldn't it be wise to invest \$40,000 dollars, you know, in one year to help this family get on their feet and get rid of this system because we will be remove criminality, we will have security in the nation and everyone will be given the opportunity to become something.

What we want to do to the prison system; everyone in the prison system is a victim of something and that something is always tied into the family values because people don't have time for the family anymore because they are working survive, they have no pleasures anymore at home, the mothers aren't there, the fathers aren't there and what

A Sound of a New Life for this Nation

breaks all the marriages today is the pressures of economics of this nation where corporations are wanting to make a bigger profit all the time on the backs of the citizens of Canada.

You are the voice of a new Canada. We want to stabilize the cost of living in Canada and put limitations as to the margin of profit that multinationals could make in our nation, depleting our national resources and when they are depleted they go away under the disguise that their giving us work. No! If they could do without us they would clean out our natural resources and they would go away with it. The proof is they are looking for cheaper people in Mexico, and this is what free-trade has done to Canada.

I am not saying that it is bad to have low prices, that low prices is the law but when you understand the basis behind these corporations to eliminate competition completely, put them out of business, so then that they could play with the prices. Over my dead body. Canada is not going to fall victim to this.

We will encourage Zellers, Sears, the Canadian corporations, the true Canadian corporations, to take their place out there and to give jobs. If the Americans can give us jobs so can we because they are using our properties, our own resources and to make believe that they are doing us a favor. If there wasn't anything in it for them they wouldn't be here. And the proof is that the G8 countries that bring water pipes out in Africa from the people that are dying, that are thirsty and put a padlock on it, "*You can drink only when you pay for it.*" If this is what you call helping a foreign nation, the hell with the G8.

We're going to get in to the G8. We're going to change it. And if you have good for the nation, for the country, you don't hide behind closed doors with fences and barricades and armies because the people know that what you are doing is not acceptable for them

People's Political Power Party of Canada

A Sound of a New Life for this Nation

because if it were in times in election you look for things that people will make you vote for them. So we are telling you what we are going to do. We're not doing it behind closed doors, we going to do it in the open. And I will never have any secrecy, nor with the G8 countries and much less with the one world order because the world is going to come in order by the acceptance of all the people and not the imposition of 8 men that will rule the planet. Over my dead body.

I love you that listens. No I am not afraid. I am not afraid but they will be afraid because they know that what they have is unacceptable for the nation. People are not animals that you corral within the confine of fences. And then you brand them with microchips so that you can follow them. I wish that these microchips would have been implanted in our politicians last year so we can follow what they are doing. You'd be very surprised at what you'd find. They want to monitor everyone else but not themselves.

You see there is a saying that you always judge others according to what you are yourself. So this is why they want it on us because they think we're like them.

But you want a new Canada. I don't care if you are in prison, I don't care if you are a pedophile, I don't care if you have murdered somebody. You know I don't want to be religious with this but Moses had killed somebody, the apostle Paul had persecuted thousand and hundred and thousands of Christians and he was called upon to be one of the greatest persons in the scriptures. And you see, to the people who are invited, all faiths are receiving this CD. We are making sure. We're excited. It's so good that we are not afraid to put it into the hands of anyone including the freemasons. We have sent it to them.

Because they need help. The Prime Minister said, "*I need help!*" in swearing that his aunt had to tell him to wash his tongue with soap. *Bring us the man; be he a god or a*

People's Political Power Party of Canada

A Sound of a New Life for this Nation

demon that could help us put the world together, we'll take him. We are here. We want to the man but not under your terms, under the terms of truth, honesty and justice.

As you want to be forgiven by the nation with false promises again of museum of 'Man and Nature', of museum of 'Human Rights' in Winnipeg. You know \$32,000,000 when there are no human rights. Do you have any excuses to not give housing to the poor? The \$161,000,000 missing tying the companies of the Prime Minister and he says that he can't find the receipts. Can we tell Revenue Canada that "*Don't have any receipts...*"? Are they going to say "*Okay, next time make sure you do?*"

Now Mr. Martin either wasn't a very good finance Minister if he can't find receipts. How can he tell us that he has balanced the budget when there is \$161,000,000 missing? So if it is the issue of receipts then he is incompetent and if he took it, it is fraud. Answer to either one of them.

You know people of Canada we love you. We have a handful of people here, people that believe in you, believe in themselves that believe in this. And never will this nation be betrayed again because you are the voice of Canada. We will give you the Canada that you want.

We want to close the prisons by helping these men to get out of there. If those that are too tough and too strong, we will give them a career in the military. They will be good soldiers, they know how to fight. But when they will learn about respect, discipline with love is not dictatorship. But dictatorship without love is human discipline and it never works.

To the young women, to the mothers, to the grandmothers, to the little girls; we will give you a nation where rape will be impossible. We will give you a nation that you will be

People's Political Power Party of Canada

A Sound of a New Life for this Nation

sought for your heart, for the beauty of the mother in you, the possible mother, the mother-to-be because this nation can not be; every one of us was preceded by a woman. And no one would like to see his mother or her mother treated like a whore. So we will not allow and permit any woman to be looked at as such in this nation. And in such we will get rid of the defamation of the family, defamation of character. We will get rid of pornography immediately because this is what corrupts the minds of young boys and men and even women some times because they have come to believe that unless they live in the fashion designed by men for their lusting ways that they will not get anywhere.

Mothers get ready! You will see the family again, you will see beautiful children and you will see prosperity and we'll get rid of the trash.

When a government supports alcohol by putting a stamp on it, when they barred the alembics in the bush people would make their own alcohol, they are provider of the healthcare costs on the rise with liver sclerosis, destroying the lungs with cigarettes. They have approved it. Now they see a way to make a profit with marijuana. Now they are going to put stamps on it so that they can regain the money they lost on tobacco. If healthcare is so high today it is because of your approval on the vises that have destroyed the nation, that have destroyed the lungs of the people, that have destroyed the liver of the people.

Healthcare could be cut down very fast. We could cut it down in one year by increasing the service and the service is love and care. When you have something to look forward to. When you go out on a date, don't you dress up, don't you feel good about yourself because you make yourself pretty, you want to look your best? But when we tell you 'your dreams', we will make them come true. So get ready, get dressed in your heart and start believing because we will make it happen for you.

A Sound of a New Life for this Nation

You the one, you are the leader of this nation. You are the leader and that's why we call upon you because I can't make my dreams come true unless you like my dream. But my dreams is you, so you better start liking yourself. You may think that you are nothing, that you are a drug addict, that you're a prisoner, that you are an Indian, that you are a 'paki' as they would call you, and this trash is going to stop. You are people, you are in Canada, you have been welcomed to Canada through immigration.

And Canada will never be one to go to war because somebody tells us that war is the answer. Because the victory according to me is... [*peace*]

When I look at all the women and children in these countries that are devastated by wars while the soldiers are in bunkers and presidents hiding under ground, I wonder when they talk about these days of trouble coming, some people speak of '*days of darkness*', can you imagine when you are hiding under ground you find the president in the next bunker? What would you tell him? Hiding is cowardess.

I am not going out there religiously because the whole nation is in a mess even with all the religions we have. Because even all religions today, they are speaking "*Eye for eye, tooth for tooth...*" This is why that nothing works in this nation.

Those who want to talk about Christianity, '*offer the other cheek*' and '*love your enemy*'; dissolve your enemy into a friend, it ain't hard. It's even easy to say "*Okay, you're right but don't be mad because I want to see you smile.*" That is the beginning of changing on the other side.

You see Canada, you that hears this, the seventh day will return. And there is no multinational that would be big enough to challenge it. Because the seventh day will be a day of rest, not just for your employees but for you too, to give you time to think about

A Sound of a New Life for this Nation

what you look like with your greed. The seventh day is a day that the family will get together.

And to the ones that are in prisons, the ones who believe that there's no way ever because you know even the prisons system, when a man gets out of prison that's when his sentence begins - because nobody wants him because he has been in there. Time 32:05

But under federal laws, and we're gonna to change this: when a man is sentenced there's no saying in the sentence by the judge, that he must suffer it out when he gets out, that the nation must keep records and blackmail him. And he has to survive this to find his place in society, and society creates criminality. We have to give everyone an opportunity to change his life/her life.

We have destroyed many lives by not caring, by not sharing, by not loving. If we were to count all the children that have died in the world because of what we did not do that we could have done, in sharing of the abundance that we have, there would be more murderers in jail and other forms of criminality.

And this is why, that if we want to extend to the nation *this is the plan of God*. And I'm not afraid to tell you the plan of God because only God we will work. The Supreme Master, the I AM, you know the....whatever name you give Him, we all agree there's one. So let's get our heads together! And those who don't believe there's one, get ready, because you're gonna to lose your throne because one will be the nation, united, under the spirit of love. The spirit of love is equality and justice.

Those that have come to the world before, to permit that we could reach 2005, in what they call 'civilization'...but I want to remind you there are many great rich men, whether its in your bible or in the Koran or whatever, that have made it to the top and have never

People's Political Power Party of Canada

A Sound of a New Life for this Nation

felt so lonely because when you make it to the top for yourself, everybody else is worthless to you. You want to be worshipped by them and served by them.

But you, the listener, you are the one that I want to serve. I don't want to be served by you. I want to be a voice for you. I want to make a difference for you, wherever you gonna go in your life.

The PPP stands for the *People's Political Power* because at election time, your voice, your opinion, you are the people together united in deciding what you want for Canada. If you want trash, forget about it. If you want good, happiness...then realize your dreams. I don't care what you did because I know what you could do. This is what I am saying here.

Before the last election, we have offered a proposal to all political party leaders. There's only one who answered, the Prime Minister Paul Martin, that he was too busy to listen, who sent me his agenda for the future, 50 years ahead but nothing for the present. It is also a man who is known as the genius behind the L20, trying to gather twenty countries to agree with him, then they declare themselves leaders of the world while doing everything in secret societies, pronouncing himself as a devout, practicing Catholic. And I guess he's ashamed to say he's a 33rd degree Freemason. Because if he was proud of it, if he had something good in Freemasonry that's good for Canada – *present it* - don't impose it. And then you will have a majority government if it's that good. And if it's that bad, it's good to find out that your education led you astray, that if you have to misuse the money, the funding the poor and declare yourself the best manager of money when you can't even account for receipts according to you, then don't make me promises that you give me this and tax break while I'm going to be paying for it. At least be honest enough to tell the people.

People's Political Power Party of Canada

A Sound of a New Life for this Nation

You the listener, are you one who always says 'we have no choice'? 'It's always going to be the same'! Don't judge me for the past! Because I don't have the education of these people to make the mess that they have. I don't! But it is somebody with the credibility of Sheila Fraser that I will look for to handle the wallet of Canada. And as soon as we get in there we're going to tell you how much is left in your bank account – there will be no secret to that! We'll open the book to the nation! You are the ones that have provided this; you have the right to receive an accountability.

And all of this abuse of power, favouritism in government and patronage and scandals, we don't need billboards to tell Canada it's united. If we were, we wouldn't have to write about it. We'd be living it now, we'd be celebrating together. Obviously, it was another big lie on the back of the taxpayer.

The Museum of Human Rights: is it a building that will convince us that we have human rights, when we look in the paper of children dying of sniffing and everything? And that now the government of Canada says, 'Well, we gave enough money! That's your problem. You resolve it yourself.'

Why don't you say the same thing about healthcare? "*We give enough to healthcare so you people are sick. You fix yourself up!*" This has to change.

This thing of celebrating crosses, of Christopher Columbus to have begun the mess of domination and dictatorship of stealing in the name of God. Unification has to come between all people and all different faiths and religions – you have nothing to brag about if you have lessened the Native people. Because love would have made them become part of us, but it is hatred and slander that made the mess that we're in. And if we want to talk about any gods of any kind it's time that we start becoming kind to each other, the *right* kind.

People's Political Power Party of Canada

A Sound of a New Life for this Nation

We are reaching out to the nation. We are inviting all the leaders of every Church. People that you find with credibility in your own communities, we invite you to invite them for us, where we will come and meet you in your community, in your congregation and welcome them to represent you in your own area, but it is not about preaching, it is about doing, this time.

And once we will invite all the people of every race, colour, faith and everything and that everyone of you that hears this CD, this message that we prepared for you, it's because I love you.

I'm not afraid to have a Muslim beside me or a Jehovah Witness or a Freemason, because you know they'd have to sell me the idea of anything better than what I have. But what I have is their well being, their well being of their own community, wherever they come from in their own nation that we will form...imagine they want to separate religion from government, they want a *one world religion!* Which one? So that is telling everybody you are bound to be 'blasted out'! Which one will it be? The only one that could be is justice, equality, peace and love and co-habitation together in the fullness of respect.

We want to stress out to the woman of Canada: this is for you. We don't want you to fight each other because of the mess that's been made of the sanctity, the holiness of the gift of the human race in you.

In the name of this nation, I want you to raise your hand because when you raise your hand that's because you want to speak. You're allowed to speak and when your hand is raised, your hand becomes like a flag of this nation. You are the flag that waves in the wind but you're never heard. We ain't going to be people who tell you: '*We'll always be*

A Sound of a New Life for this Nation

there. We like to listen, we want your opinion...' and everything, but when you give it, it's: *'Shut up. Now we're in, we don't need you anymore.'*

We could cut down the budget of Canada by 50%. In 1966, Pierre Trudeau and I ain't a Liberal, I am liberated. Pierre Trudeau made a survey in Canada, that Canada has the power to feed the world over, by itself. A lot of people say, *'Are you left or right?'* Well, somebody left me behind, I could say that but I'm center, I'm centre and I ain't a fanatic. I don't want wages, I don't want nothing! I want your troubles. I want to get busy fixing the diseases of this nation.

Hope is the beginning of faith. Even a Freemason could hope. He hopes to put his scheme through. He has a bit of faith in his own self but not others. Faith is the beginning of realizing a project. You know, money, the false god of man has been limiting everything.

I got an e-mail the other day and I want to tell you about it. And it's so true...about next Monday, nobody buys gas in Canada. So if everybody holds onto that, their surplus is going to be so big that they're going to have to give it away. And years ago, you know when I got this e-mail; it reminded me of years ago I had a customer of mine who was one an executive of Shell Canada in Calgary. And I was asking him, *"How do prices fluctuate all the time in gas?"* And here's what he answered me: he says, *"To stop production, to stop the machine and everything would be so costly, because to re-start them and to re-prime the pipes, it would cost billions of dollars. So when we have a surplus, that's when we throw the price war, just to bring it down to normal."* So let's give them a surplus. Let's walk for a week! They gonna cry – they'll pay you to get gas. And isn't it strange, that then they tell us the price went up? Let's give them a nightmare.

A Sound of a New Life for this Nation

Technology they speak about, and I got news for the oil industry, because get ready to pack because the Lord's got a new way to run vehicles with *nothing* of your own thing. And these things are going to come out. And the governments that are liking selling gas because $\frac{3}{4}$ of the money on the gas litre goes to government. So the more the price goes up, the more the profit they make.

When you go to the pump, put gas...there's a little circle there. Look at it. It's got different circles on it. And it tells you that in 72 percent is in taxes. And the little man makes about 15% profit. If the little man makes 15% at the gas pump and he's happy, he's got a business, he's got a nice house, imagine what the other percentage does!

We could eliminate the cost, we could diminish this, because productivity, if we reduce the cost of gasoline, productivity will be stronger, because corporation will make money. Watch how it is! If your overhead is so high that you barely make any money but suddenly because your cost of operating is cutting down lower, you make more profit, you could have more employees, more productivity so you get it back in taxes that these people pay and get your money back, in return.

The welfare system...if you help putting these people on their feet, they get off welfare. They end up paying taxes. And what's most beautiful, they're in the framework of the productivity of work. You give them dignity – they're doing something, they are good for something. What we wanna recommend too, immediately, the women that are welfare, there's no reason why they should not have a free - *a bus pass*. So they could visit where otherwise they can't, they are stuck in one house, in despair. What does it cost when the buses are empty, to give them a card where they could socialize? That would reduce the cost of criminality. They would feel like a normal citizen too.

A Sound of a New Life for this Nation

In doing this also, you're opening up so many ventures: the children, the voice of the mother at home. All criminality, all forms of violence, hatred, physical abuse, sexual abuse...you know, I saw one time on the back of a car and please don't mind this because it's to make a point; sex relieves tension. And everybody could say, it sort of does but if there was no tension, would we need that? If it's the alternative to tension, why don't we find another alternative to tension? So we won't have to result to this and every living person is living embodied into this flesh garbage! That leaves no room for the heart and intellectuality.

When you discover the beauty, when you discover the gift you have in woman – I don't care what man wants to say about woman! If they're that bad, why in hell do you bother with them? You want to use them physically; you want to use them sexually. You want to use them morally, dominate them. If they're that bad in your nightmare, why do you bother? Is this weird to want something you don't like? You know why, it all ends up the same thing: relieve tension. So pay attention to these words, and woman, you are not a 'stuffing bag'. You don't have to bow down to these pressures and let no man, I don't care where he comes from, tells you that 'it's your duty' to do what you do don't want to do. Because you have been given free will, like I have been and you decide what you want and what you don't want.

And you have to stop being in bondage, you have to have a voice and you have to speak up. But I ask you not to be angry, but you know when the nation spends its time into pornography and sexuality on television and when you hear producers saying that 'unless we undress women a little bit the program has no value.' I want you women to know one thing: when you see a woman half naked, does she look like a mother? Not at all. She looks like a dummy in a window because she believes her physical is all that's good in her. Let the dummies look elsewhere. Be modest. Become representing. You are the ones that hold the human race in your hands, to me. Every human that lives belongs to a

A Sound of a New Life for this Nation

woman, belongs to a mother. Imagine, this is you and let no one defame the sanctity of life in you because the gift of life, it is something that has to be born from the heart, not from physical desires. Immediately we will get rid of pornography because there are laws to protect against pornography; the laws of sexual harassment, whether it is in a magazine or video; on the street or on the beach we will make it sexual harassment.

Like I said earlier, Winnipeg Police that picked up all these Johns as they wrote it in the paper, we'll put the Johns in the johns. They gonna stop that because now they are saying that these girls are sexually harassing and these men are sexually harassing these girls because right there, there's proof that it's a crime because both get picked up. So both have to start thinking if they don't want to miss the boat.

And this is where these young girls on the street that are into drugs and alcohol, when I hear beautiful little girls, about 8, 10 years old telling me that they have to steal because they know they will never have a nice dress, they know they will never have a new thing; that if they want to go see a show, a movie, that only the people with money could go to, they have to try to sneak in or sleep with somebody or make-believe they love somebody that will make them see life too.

And this is not just with the First Nation people, it's with you too, you women too. Don't teach your children 'make sure that you find a guy with a lot of money and that he's got everything' because then just send her on the street corner. She won't be stuck with the guy, at least, being made miserable by.

I remember a young woman, a young native woman I was talking with. She was on the street and she says, "*You know what my mother told me; never to believe in love. Sleep with them, give them what they want, grab their money and run. Don't get attached, because it always ends up this way.*"

A Sound of a New Life for this Nation

Sometime the man is there but he is not there. That's why sometimes people use the expression 'he's not all there'. It doesn't mean he's crazy. Sometimes he's there, sometimes he's not there.

You girls, your daughters, your families, your community and you the Church leaders it's time you start pulling up your sleeves and start being servants instead of seeking to be worshipped by people. It is time that you start serving what you preach to those that you say you love.

If you are the fathers to your community, if you could draw them into your buildings of fancy and glass and what have you, do you pay them a visit? Do you go visit your children in their communities, into their homes, into the schools? Why not? Have you become Queen Elizabeth that people need appointment to enter your castles of gold that they paid for? It is time you respect those that have elected you.

And those that have come to think that they are good preachers and good speakers, that is no good because such a thing should not exist. What should exist is what you speak in living, not in the spoken and not in the seeking applause and qualities beyond what we deserve.

The unity of the nation: **we need people**. We need people with credibility. We need people with modesty, with dignity, with moral values and most churches know of people like this. But the greatness of moral values is not what you speak, it's what you live. Moral values is something that could only be seen, not heard of. And when it is seen, it becomes attracting to the people who are the onlooker as you are the listener of these words of love for you.

People's Political Power Party of Canada

A Sound of a New Life for this Nation

This is why we're not going for wages and salary – I couldn't care less. And no, I'm not going as a politician. The People's Political Power is the *power of the people*, not the power of the few people who call themselves 'politicians'. You *are* the power.

This is why we invite you, maybe a surprise for you because what sounds good to the ears could be 'sang'. This is how people learn songs, they are drawn by the words. But this isn't a song. This is my life on the line for you. And you are the reason of this love. The reason of moving me, moving my heart and the people that are here with us, putting this together today, that we are moved to the heart to get to your heart. This is why perhaps we haven't fed you with food and things before, but when we feed your spirit, we ask you to multiply this bread. The real bread that gives life is the caring in the heart, is the reality of modesty and humility and moral value in your heart.

I love you, I respect you. I don't care what you look like, where you are; whether you're French, English, Inuit, First Nation, Polish, Chinese...anything of the world. You are one people with me and you are all invited to come to Ottawa to make the difference. Coming to Ottawa is becoming part of the relationship, the leadership that will be in Ottawa on your behalf. So get on board before the ship leaves and make your dream come true.

You will find behind the cover of this CD, if you open it up a bit, you have a form for becoming a membership, a member, a 'member of the ship', so it's a membership. You understand? And you also have the form from Election Canada that needs to hear that what you hear here, you want to see it happen. And wanting to see it happen, if it is what you believe and that you love all you gotta do is fill it out and send it to us and we'll do it for you.

A Sound of a New Life for this Nation

It has cost you nothing and we promise you one thing: that the budget system will come down and the service will increase. And what we will do for Canada, not only that we want to give family day but we want to give more than that. We want to bring that every man of this nation will work, but that everyone will work less to have more time for their family. That man will work 4 days, but that every man will work. So in this, we will destroy the budgets of welfare, the budgets of prison because everyone will have a place in this nation.

And those people, the seniors that are in hospitals, in senior's homes, we haven't forgotten you. The joy that you will see happen – the dream of living forever – is being offered to you. Because when you are happy, when you know, when you see things happening on your behalf of people who care about you, people who love you, your body will forget to age. You will freeze, you will become senile into the good times of your life and forget that ones that are bad. I kind of like this. Could you imagine if we could only remember the good things of our life? So we will fill your everyday with good things.

And you see, on the issue of Free Trade: Free Trade is to be defined somewhat like *bartering*. If you remember the old system of bartering you give me a pound of flour and I'll give you ten planks to build your fence. One thing was worth as much as the other.

101;18

The issue of Free Trade, what we want to do with Canada is not ask people to work but invite them in building in your nation. Just like when we have a flood, immediately everyone knows what to do – there's no preparation. You've got all these trucks there with sand and everything and you've got all these people walking because it is a need for the nation! They want something for their own people, their own community! If we give certificate of approval and recognition to volunteer, why don't we all become volunteers?

People's Political Power Party of Canada

A Sound of a New Life for this Nation

We will have certificates! To volunteer is to care! Are the volunteer the only people who care because nobody else wants to volunteer?

The seniors that are in these seniors' homes, we will visit you. There's no one that will be left out. All things new! When we will put our heads together, and hear this because this is powerful, when we will have that much care and love for each other we will receive the wisdom to heal every diseases in the land! Why are we doing research if we don't believe that we could bring a solution?

But why are we looking for solutions, that it could be the greatest, with copyrights and everything? Do doctors wish there was no sick? Do policemen which there was no crime? Do nurses wish there was no sick? Everyone goes in for job security and job activities, you know, getting busy and make sure and now you see things are going so well in Canada that healthcare costs are going to go skyrocketing because it's going to get worse! You're gonna be more sick! What a dream for Canada! I'm telling you they're *liars*. They want you sick so that they have their jobs. Doctors should pray to have no patients. Then they'll know how to be patient.

They will know that the employees of the prison system are the prisoners. The employees of social workers are the ones they look down at. The employees of the city police are the criminals. The employees of the judges and the crown prosecutor and all lawyers are criminals.

Do you want to do away with crime, and you say you're fighting crime, crime stopper? You know Crimestoppers, they have the word 'reward' so that we could keep feeding the courts so that they stay open.

A Sound of a New Life for this Nation

But what do we do for the citizen? If we could be patient for a new baby that knows nothing when he's born, why don't we do something for the living?

Some people talk about false gods and images and what, but November the 11th memorials of soldiers, unknown soldiers, they put wreaths and flowers there, but we do nothing for the living. Unless you go to Hawaii, then they put wreaths of flowers around your neck. So that's the only place where living have flowers placed around your neck. Isn't that a shame?

Isn't there a saying that a person is never appreciated more than after they're dead? So maybe I should run to my death then maybe appreciate it.

But people look for rewards, for tangible rewards. Let's get busy with the living. The dead are gone. We don't remember the dead. People weep and cry but when's the last time they go to the cemetery? When? But on Remembrance Day when we want to remember the ones that we sent to kill.

International policies to Canada will be a landmark of peacemaking, because we ain't going to send your kids to kill because we can't share love and communicate.

This is why that all of those that have gone to fanatic, where we speak of a religion and we promote pornography, desolation of woman and the family, and then we scream at those who are fanatic and their beliefs and what.

Terrorism has no place to exist, but I could tell that when people (terrorists) will see that peace, love and justice is coming for all people of the world. This is when these things will stop.

People's Political Power Party of Canada

A Sound of a New Life for this Nation

And there's no excuse for the most brilliant people of secret society to have to result to war to put their point across. That shows how unintelligent they are.

And to finish with this, our policy is that in a conflict if anybody loses, nobody wins. We will resolve things until they are functioning.

So you the listener, we invite you to look inside this pocket. As a matter of fact, we're going to give you to know how much we love you. We so don't want to be like others. Alright? That those of you who have the CD that want to see your dream come true, if you find ten cents, five cents, because that's all you have to be a member, send it in. We'll accept you because we are opening the membership to everybody in Canada. Those who can't afford it could be members too because it's about you and we ain't going to start selling you what belongs to you.

So you could fill it out, send it in. Naturally we ask if you could help us to make this go the world over. We're gonna do it. Believe me, we're going to do it! But you are not exempt of being part of this. You have to be 18 [years old] and over. I don't care if you're from Africa, I don't care if you're First Nation, I don't care if you are in a bar downtown as long as you are sober so you can write on the right line. You understand? Because we'll come and get you out of your misery.

This is about loving you. This is about Canada. And Canada is you.

So you have heard "*The Sound Of A New Life For This Nation*". You are born brand new now. We don't look at your past, we know nothing of your past because we know what you could do in the future. And we invite you to do it with us.

God bless you and these applause are for you from us,

People's Political Power Party of Canada

A Sound of a New Life for this Nation

(The sound of applause)

because you are our reason to live.

(Roger clapping)

(More applause)

We want you!

You are this nation and we're going to bring you to the top of this nation! We will hail you! You are the flag of this nation! Give thanks to the one that you believe in the Superior of All Things, the One Above, however you call Him, whatever name you give Him. He is the One who will rule over this nation by peace, love, justice and equality and First Nation - get on board because we are going there!

Thank you and God bless you. **END**
